Professional Summary

Aspiring Full Stack Developer with hands-on experience in frontend and backend development using the MERN stack (React.js, Node.js, Express.js, MongoDB). Skilled in building responsive web applications with REST API integration, database integration, authentication, authorization, and CRUD operations, following MVC architecture. Strong foundation in Data Structures, Object-Oriented Programming, and debugging, with a focus on writing clean, maintainable software.

Experience

Full Stack Developer Intern – BroStartup *Aug 2026 – Present*

- Developed frontend pages using React.js and built backend REST APIs with Node.js and Express.js
- Integrated MongoDB for application data storage and implemented authentication and authorization for secure access control
- Debugged and improved existing application features, collaborating using Git and GitHub for version control

Full Stack Developer Intern – SavantX Technologies Private Limited *Jul 2026 – Present*

- Built reusable, modular React.js components to maintain frontend consistency across application features
- Integrated frontend interfaces with Node.js/Express.js backend services, managing client-server data flow
- Implemented authentication functionality within an MVC-structured codebase, using Git/GitHub for collaboration

Projects

Smart Tourism System
React.js, Node.js, Express.js, MongoDB, Mongoose, Passport.js, Bootstrap, REST APIs

- Designed 3 core Mongoose models (User, Listing, Review) to structure data for travel listings and reviews
- Implemented authentication and authorization with Passport.js to restrict listing management to owners
- Built RESTful CRUD API endpoints for listings and reviews, following MVC architecture with server-side data validation and session management

EduVerse Learning Platform
React.js, Node.js, Express.js, MongoDB, JWT, Multer, Tailwind CSS

- Built a full-stack MERN learning platform with role-based access control for student and teacher user roles
- Implemented JWT-based authentication and designed REST APIs for course management and CRUD functionality
- Developed PDF upload and management using Multer with an embedded PDF viewer, flashcard, and quiz generation features

Education

Bachelor of Computer Applications (BCA) *2024 – 2027*
Goel Institute of Higher Studies Mahavidyalaya CGPA: 8.0/10

Intermediate (Class XII) *2023*
UP Board 67.2%

High School (Class X) *2021*
UP Board 81.5%

Skills

Programming Languages: Java, JavaScript, Python
Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap
Backend: Node.js, Express.js, REST APIs, JWT Authentication, MVC Architecture
Databases: MongoDB, MySQL, Mongoose
Core Concepts: Data Structures, OOP, Authentication & Authorization, Debugging, Problem Solving
Tools: Git, GitHub, Postman, VS Code
